

**W LIFEHOUSE**  
wonderful living area

# ABOUT US

---

We, since 1997, have been treating wood and metal for people, turning it into products that add comfort and freedom to life. We have been presenting international quality certified tiny house (carriage house) options with unmatched prices to every corner of World.

Our story which started with a workshop of 150 sqm continues today in our own factory of 3000 sqm, with a 25-man expert team. Out of our latest technology production line comes any sort of portable house model you wish, or a tailor-made mobile home in a matter of days.

We have been exporting our products since 2010. We proudly deliver the labor and knowledge of Turkish people to many countries such as France, Germany, Canada, Switzerland, the Netherlands, Qatar and the United Arab Emirates.

The WLIFEHOUSE tiny house models, which we designed for different lifestyles, are developed for all the usage patterns you may need. You can use it as a summerhouse or normal residence, as an office, or as a workplace, and turn all your journeys into a unique

experience with it. You will enjoy the advantage of owning a solid wheeled house thanks to the materials with international quality certificates and contemporary production methods, and you will get the full return of your investment with the high second-hand tiny house value it constantly maintains.

We offer you 29, 24 and 19 sqm tiny house options in our ready-made models. We supply our models, all of which have loft floors, with wood materials that will endure the years, quality-tested metal parts and first-class vehicle connection equipment. Moreover, we accept your special wheeled or not-wheeled mobile house order, and if you wish we produce the tiny house model, every detail of which is designed according to your taste. In addition to these, we can provide heating-cooling, white goods and furniture options if you wish, and we offer you the comfort of owning a turnkey tiny house.

If you are looking for a good companion on asphalt and a pleasant home for every break, contact us now. Let's produce your dream tiny house model with all the options you want from a single source. No matter where we go, let's greet every morning in our own home.

## THE WLIFEHOUSE DIFFERENCE

WLIFEHOUSE tiny house is offered with a minimal design or with a heating-cooling system, furniture and white goods. It is delivered ready for every usage from as a residence to a workplace or office.

## HIGH QUALITY

WLIFEHOUSE tiny house models use first class wood and global quality metal parts. You and your loved ones will enjoy the advantage of trouble-free use for years.

## LONG LIVE FREEDOM

The tiny house can either be your home, your summer resort and your workplace. You can go as far as you like without leaving the comfort of your house, and enjoy all that only belongs to you.

## AFFORDABLE COMFORT

We produce WLIFEHOUSE branded tiny house models in our own factory and with our own resources, so we offer you mobile comfort with the most affordable prices.

## FOUR SEASONS

The solid wood, durable metal parts, double tempered insulating glass and all other superior features we use in our portable house models provide trouble-free use throughout all seasons.

All our models are warranty for 2 years with wlifehouse assurance. With wlifehouse, we offer a safe living space in all seasons.

# Tiny HOUSE IS FREEDOM

If you own a tiny house, your view will never be blocked, moreover, you decide what that view will be.

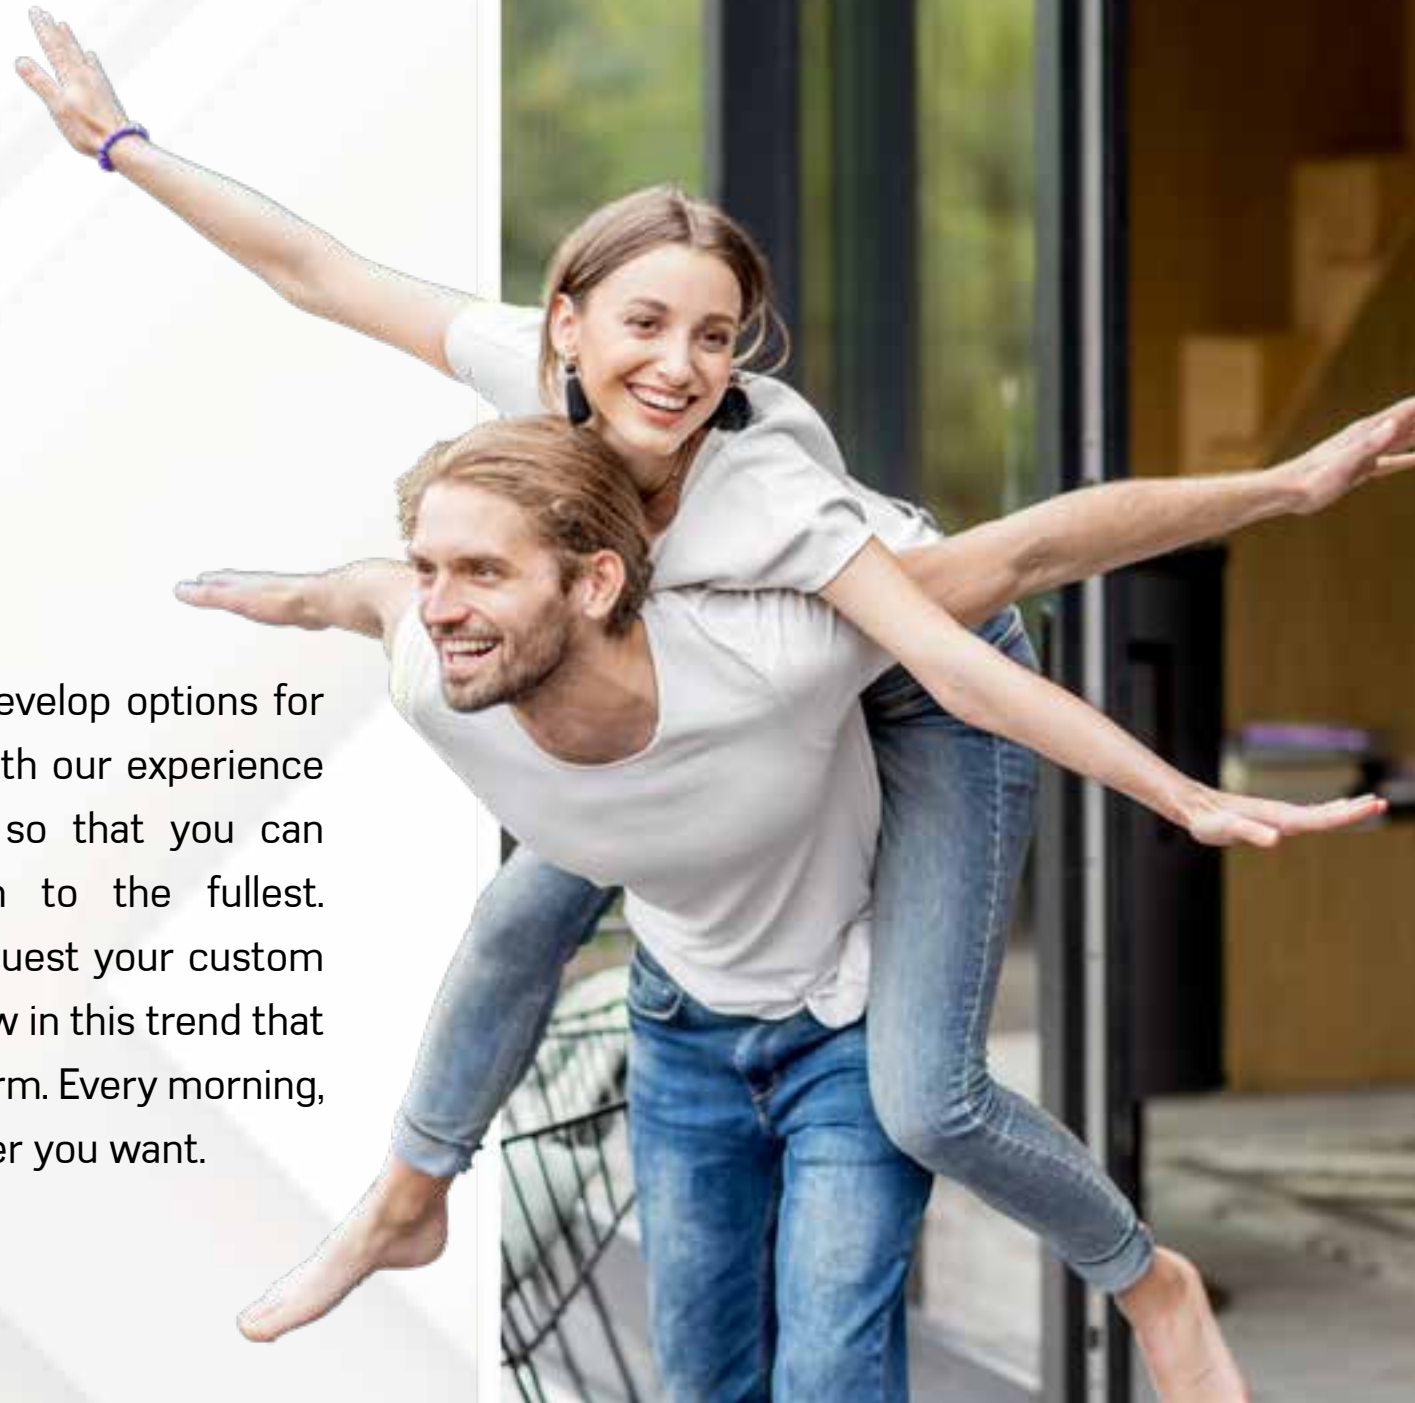

If you own a tiny house, you are unlikely to complain about your neighbors, because you choose your neighbors. Or even choose to have no neighbors if you wish.

A tiny house is the vehicle that allows you to answer “Where will I go if there is an earthquake or flood?” question easily: “Wherever I want!”

And a tiny house is your companion when you’re on the move, and your cozy home when you’re stationary. And that’s valid in any corner of the world.

# LIVE LIFE WITHOUT LIMITS

So we, as WLIFEHOUSE, develop options for every budget and need with our experience of more than 25 years, so that you can experience this freedom to the fullest. Choose your model or request your custom design. Take your place now in this trend that has taken the world by storm. Every morning, open your eyes at wherever you want.

## **FREQUENTLY ASKED QUESTIONS**

---

### **Do you do custom designs?**

Yes, we can make all sorts of custom designs for you. Our expert inner team of architects evaluate all requests from you, and our competent production team makes your dreams come true.

### **How is the WLIFEHOUSE mobile houses' shipment made?**

We ship to all parts of the world.

### **How do we connect to electricity and water?**

You have 3 alternatives in electricity. These are solar energy panel, generator or connecting to the transformer in your area. For water, you can connect to the city water or make use of the water tank.

### **Is your factory open for visits?**

You can visit our factory between 09.00-18.00 in weekdays and between 09.00-18.00 on Saturdays. Our factory is in Denizli - Turkey

### **Do you produce tiny houses without wheels?**

Yes. We produce wheeled or non-wheeled models according to your desired dimensions.

### **Does tiny house require municipality approval?**

No, it doesn't. Being a wheeled vehicle a tiny house is covered by the Highways Law and is delivered from us to you with a license, plate and type approval certificate.

### **Does it require a special approval to use on road?**

No, it doesn't need a special approval. It can move as an independent vehicle as it has a type approval certificate, license plate and car license.

### **How is wastewater disposal done in WLIFEHOUSE tiny houses?**

You can connect to the sewer network line where you will position it, or you can open a cesspool.

### **Is a zoning permit required to put my tiny house on any land?**

All WLIFEHOUSE models are "Caravan" type vehicles with plates and car licenses and are produced within the framework of the Highways Regulations.

The Construction Zoning Law, on the other hand, is a law designed to ensure that the buildings comply with the plan, science, health and environmental conditions.

Therefore, WLIFEHOUSE mobile homes are legally a vehicle, not a building. It is subject to highway regulations and can be placed on the land in the desired zoning plan without requiring a zoning permit. It is defined as a legally parked caravan, not a building subject to the Zoning Code.
